

Club Administrator and Coaches

**Could you forward this to all the parents and players who will be playing in and attending the Viper Sports Club Tournaments this winter.**

The front office building which is located in-front of our facility was sold this past spring and the new owners do not want any of the cars attending our tournaments on Saturday and Sundays to use their lot for parking. He has informed us that ALL cars parked on the black top for the Office Building, on Saturday and Sundays, will be towed at the owners expense.

In order to correct this situation **we have obtained more parking in the back of the building for the teams who are attending the tournaments.**

- We ask that all cars are parked in designated parking spots and between the white lines.
- We will do our best to keep the lines visible throughout the winter.
- Any snow will be removed as soon as possible so the spots are available
- In the event there is snow and the lines are not visible - we ask that you park as close as possible and not occupy two spots.
- There are enough spots to accommodate the teams
- We ask that once your team has finished for the day that you make your spot available to the next group coming in.
- When possible in the schedule - a 10 minute break will be included between divisions to help with the parking transition
- We plan on having parking attendants during the busiest tournaments  
**There is a designated Umpire Parking area** to the right as you come onto the gravel. This is necessary because of their shift change throughout the day. Please keep this area only for the umpires unless you are instructed to use a spot by one of the parking attendants.

Thank you for coming and playing at the Viper Sports Club - your support is appreciated!!
